9 November 2018

Letter of recommendation

From 9 – 11 May 2018 the European Wound Management Association (EWMA) held their annual conference at Expo Krakow. The conference was attended by more than 3,500 participants incl. exhibitors primarily from Europe, but also from the rest of the world.

Right from the beginning, our dialogue with Expo Krakow was very constructive. The venue assisted in clarifying all aspects regarding the venue and city so we could comfortably sign the contract.

During the planning phase, the planning team were extremely helpful, responding quickly and clearly to any request we had.

When we came onsite for the conference all agreed deliveries (stand construction, registration build, signage, AV etc.) were in place and any onsite requests we had were handled efficiently and without delay. The team were always there for us and really did their utmost to service us and our more than 100 exhibitors and to make our conference successful.

We can recommend Expo Krakow, since it has been one of the best venues to work with and can certainly compare with other European cities in terms of providing an attractive price value package combined with a wonderful city and a professionally run venue.

On behalf of the
EWMA Secretariat

Maiken Barsøe-Sayers
Congress Manager
