

# SUMMARY

6<sup>th</sup> International Cooperative  
Trade Fair of Tools  
and Processing Industry

16<sup>th</sup>-18<sup>th</sup> April 2024,  
Bydgoszcz, Poland

---

[www.innoform.pl/en](http://www.innoform.pl/en)

On April 16-18, toolmakers and plastics processors met in Bydgoszcz to familiarize themselves with the offers of 170 companies from around the world. 2,723 professionals had the opportunity to learn about the offer addressed to the broadly understood molding industry and took an active part in company presentations, discussion panels, conferences and a cooperation exchange.

*[...] In addition to participating in the largest industry trade fairs in Poland, we also look favorably on the specialized tool fair in Bydgoszcz. The very dynamic Bydgoszcz Industrial Cluster Tool Valley operates here. Bydgoszcz is also a hub of tool companies and dynamically operating university research units that closely cooperate with this sector. Therefore, we believe that this is the perfect place where we can present Bole's potential – Jacek Leszczyński, Chief Marketing Officer, BOLE Europe Technology.*

*The Bydgoszcz fair is a medium-sized fair, but despite its not very large dimensions, we had a lot of traffic and quite a lot of interest. There were more specific customers and targeted in their demand. We would definitely always want more, but we are satisfied. Nice fair, pleasant atmosphere, maybe less than elsewhere, but certainly more specific – Marcin Kupidura, Sales Director of Meusburger Georg GmbH & Co KG*

# CONFERENCE „Plastics Recycling in the thicket of regulations, still a noble idea or already a utopia?”

The panel participants were practitioners, representatives of the banking sector and the world of science, who provided tips on how to implement sustainable development policy in the context of competitive advantage.

**Panel Discussion I:** The Future of the Polymer Industry in the Context of Environmental Challenges.

**Panel Discussion II:** ESG Challenges – reporting on sustainability issues and its impact on the competitiveness of the industry.

## Presentation block: Modern solutions for tool shops

*Innovative imaging techniques for plastics quality control of composites and research and development applications* – Jan Podgórski, scientific representative, Shim-Pol A.M. Borzymowski

[write to the speaker >](#)

*Innovative solutions in hot runner system technology for multi-cavity molds* – Marcin Leszczyński, Sales and Service Manager, KONEK PSN Ltd.

[write to the speaker >](#)

MAPAL Complete Technology Partner – Szymon Koziół, Technical Consultant, Mapal Precision Tools Ltd.

[write to the speaker >](#)

HASCO – A pioneer in mould building for 100 years – Izabela Szczerba, Technical Sales Engineer, Hasco Polska Ltd.

[write to the speaker >](#)

*Sumaris – OpenGrain Project in Practice – Texturing and Marking on Forming Surfaces* – Michał Birenbaum – CEO Opengrain, Partner. Sumaris Group

[write to the speaker >](#)

*Moldex3D – examples of the use of injection molding simulation in projects* – Rafał Pawlik, Owner, Pawform Ltd.

[write to the speaker >](#)

**Block II: BETTER FACTORY Info Session. Innovation unleashed: Discoveries from Better Factory's agile production and personalisation of products initiatives (H2020).**

**CORNET Info Day**

[more information >](#)

## COMPANY PRESENTATION:

*Direct-Flo™ with Heat-Inject. Optimization of the process and quality of the molded part with dynamic spot control of the mold temperature* – Zdzisław Mrozowicz, Sales Engineer, INCOE International Europe

[write to the speaker >](#)

Moldex3D – Injection simulation process – Zbigniew Kurczoba, Moldex 3D Specialist, PAWFORM Ltd.

[write to the speaker >](#)

*Low-Emission Metalworking Fluids* – Marcin Setkowicz, General Director, Syntaco Sp. z o.o.

[write to the speaker >](#)

*Meusburger Portal and an overview of its functionalities* – Jakub Psiuk, Sales Manager, Meusburger Georg GmbH & Co KG

[write to the speaker >](#)

*Reduction of production losses on the basis of case study* – Krzysztof Bartosiewicz, Key Account Manager Industry, Les Higiena – Tork, brand Essity

[write to the speaker >](#)

*Increasing the efficiency of mold machining with SINUMERIK* – Piotr Orlik, Dealer Account Manager & End User Promoter, Siemens Ltd.

[write to the speaker >](#)

*Tax relief for expansion – double deduction from income tax of costs related to, among others, with the promotion of their products at fairs* – lawyer Jakub Kluczykow, Law Office TAKS

[write to the speaker >](#)

*Warehouse market in Poland + industrial park powered by ZOE* – Michał Naworski, Negotiator and Szymon Garbarczyk, Senior Negotiator, Knight Frank Ltd.

[write to the speaker >](#)

Tebis CAM – Speed up the process of preparing and producing EDM electrodes – Sławomir Szczyglak, Sales and Technical Consultant, AMS International Ltd.

[write to the speaker >](#)

# Plastics Recycling Exhibition

A novelty of the 6th edition of the trade fair was the separation of the Plastics Recycling Exhibition in part of the exhibition. Since the development of the molding industry is directly related to plastics processing and recycling. Several companies took part and presented the latest technologies, machines and recyclates.

A wide-angle photograph of a busy trade show floor. Numerous people in business attire are seen walking, talking, and interacting at various exhibition booths. The booths feature displays, including a large red machine and a table with a white tablecloth. The overall atmosphere is professional and active.

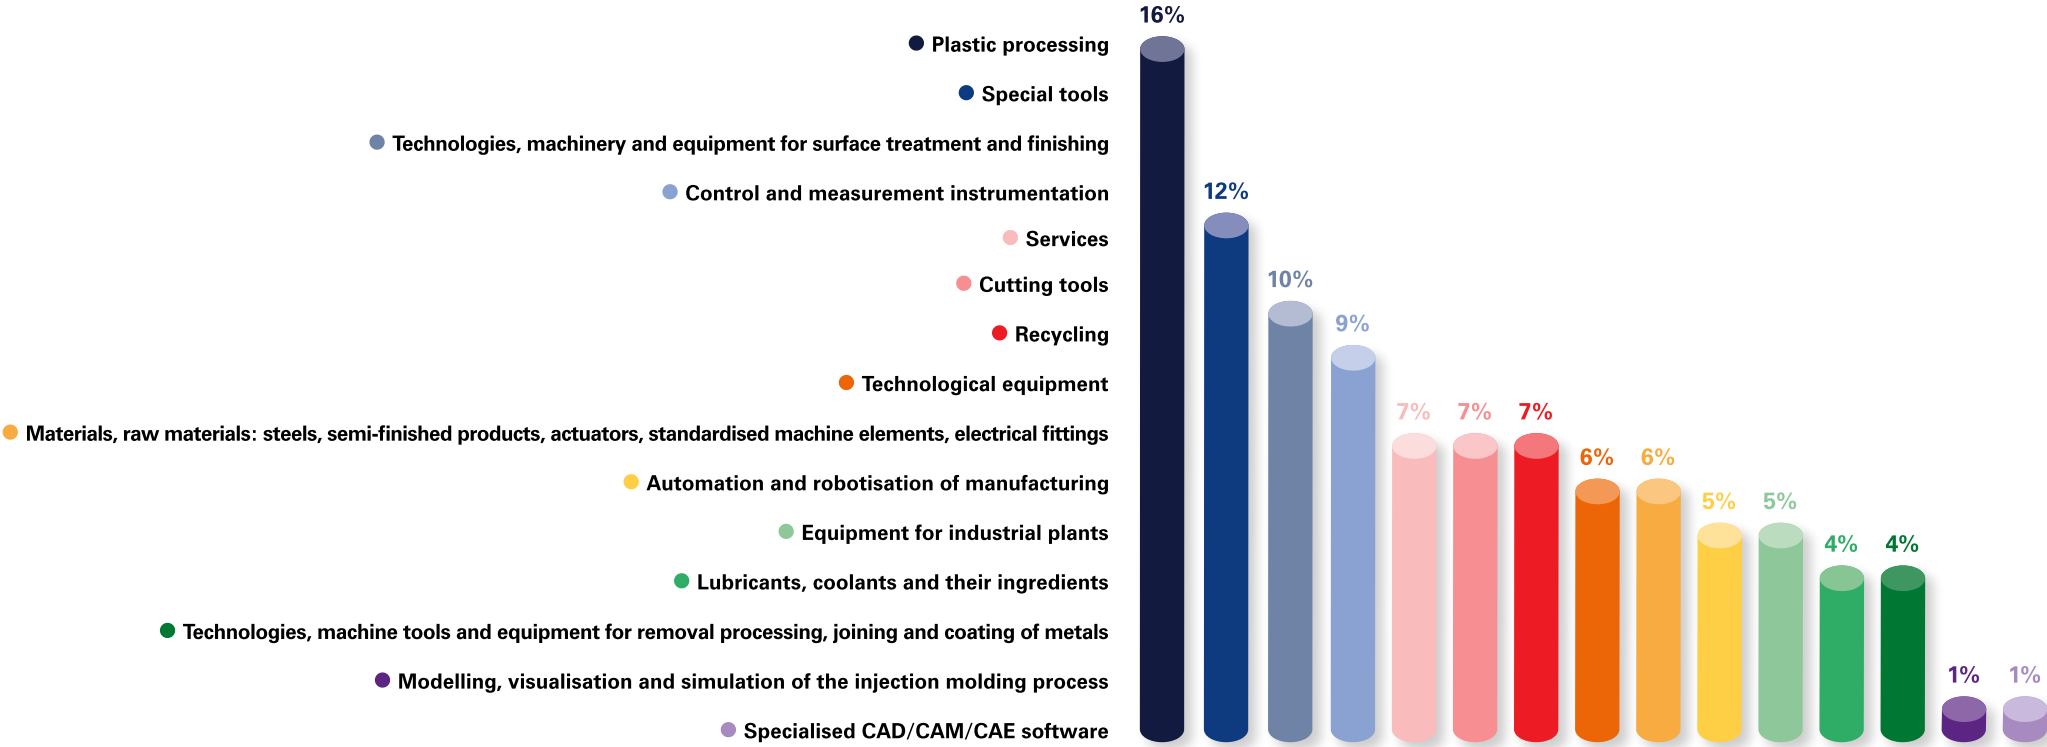

*Recycling plays a huge role in our society. It is important to promote it not just as a passing fad, but as a lasting change in our approach and way of thinking. It is crucial that we recycle plastic products instead of just producing new ones from virgin raw materials, especially considering the availability of such opportunities on the market* – Estera Jamrozek, Area Sales Manager at M-A-S Maschinen – und Anlagenbau Schulz GmbH

# Brokerage Event

An important element of the fair program were B2B meetings as part of the Brokerage Event, organized by the Enterprise Europe Network center at the Toruń Regional Development Agency. The brokerage event took place in a hybrid formula – 20 meetings took place in the exhibition space, and another 12 online. A total of 82 participants took part in the meeting.

# Exhibitors – industrial sector

# Exhibitors – origin

**Rest of the world 17%**

**Europe 34%**

**Poland 53%**

# Visitors – occupational position

**44%**  
**Manager**

**32%**  
**Engineer**

**14%**  
**Sale and marketing  
specialist**

**10%**  
**Technician**

# Visitors – industrial sector

**38%**  
**Plastic processing**

**27%**  
**Metal Industry**

**10%**  
**Machinery**

**5%**  
**Automotive,  
railway, aviation**

**5%**  
**Electronics and  
electrical engineering**

**5%**  
**Special tools**

**4%**  
**Packaging**

**2%**  
**Horticulture,  
agriculture**

**1%**  
**Medical**

**1%**  
**Furniture**

**1%**  
**Chemical,  
farmaceutica**

**1%**  
**Food**

# Institutions and partners co-creating the trade fair

A Strategic Partner of The International Cooperative Trade Fair of Tools and Processing Industry INNOFORM® is Marshal's Office of Kuyavian-Pomeranian Voivodeship
